Each passing day brings many new and exciting experiences. Each hour brings a new day, each day, a new season. Before you know it, the school year is over and a new set of adults get prepared to take their place in the world. The future years will hold many different things in store for each of these young adults.

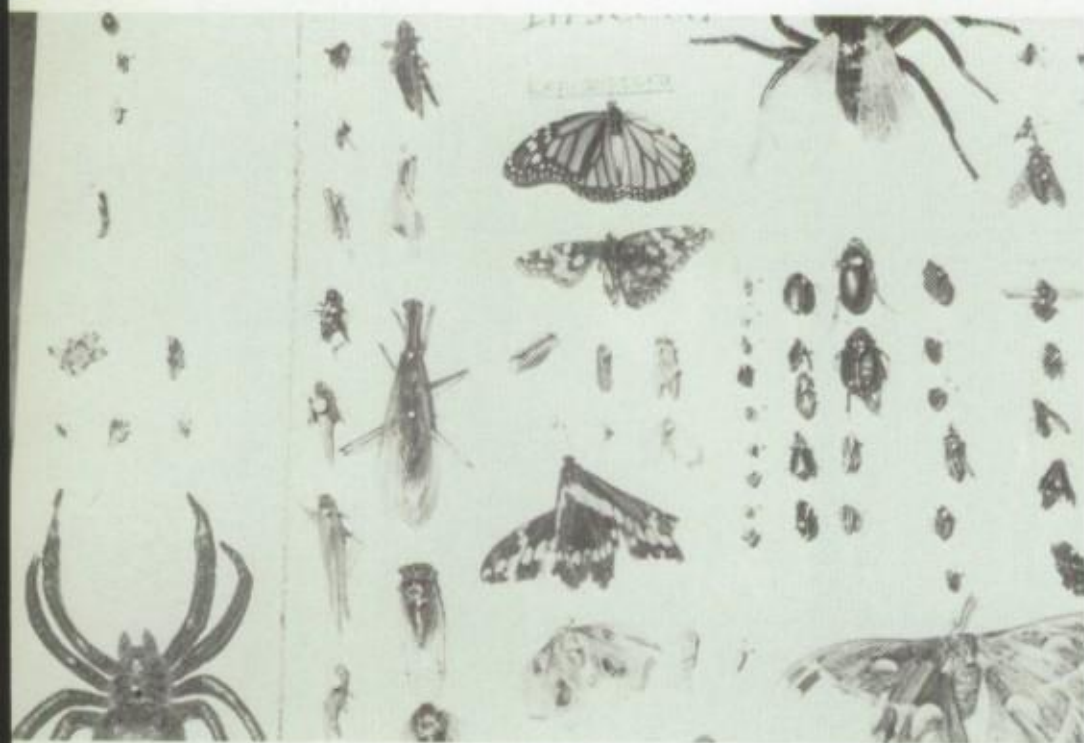

There are so many opportunities in life, with so little time to accomplish them. Time passes so quickly that it can become very easy to fall behind.

As freshmen and sophomores, there seems to be so much time ahead to decide your future. As juniors, it is time to think about what will come after high school, and the many possibilities that life has to offer. As seniors, the future approaches very quickly, and there are so many decisions to be made, in a small amount of time. Whether you are a freshman or a senior, the time will pass quickly, and the world will be opened to you.

# America on the Grow

This year the FFA has certainly practiced the FFA theme, "Keeping America on the Grow." Our chapter activities have been conducted to train members to become leaders and provide them with every opportunity possible to put their skills into practice.

Some of the activities conducted by the chapter included the area of community service. Our projects were: constructing and renovating player benches and bleachers for Risingsun Ball Park, welding and erecting 90 feet of pipe railing for a safer grandstand in the football stadium, and the repair and repainting of the football ticket room. Other spring, summer and fall projects included: planting 50-60 more seedlings in the school windbreak, planting flowers in the school signboard planter and putting a new 700 square foot section of sidewalk in front of the school as a class concrete project. In a more safety related project, members properly disposed of 1000 pesticide containers for local farmers.

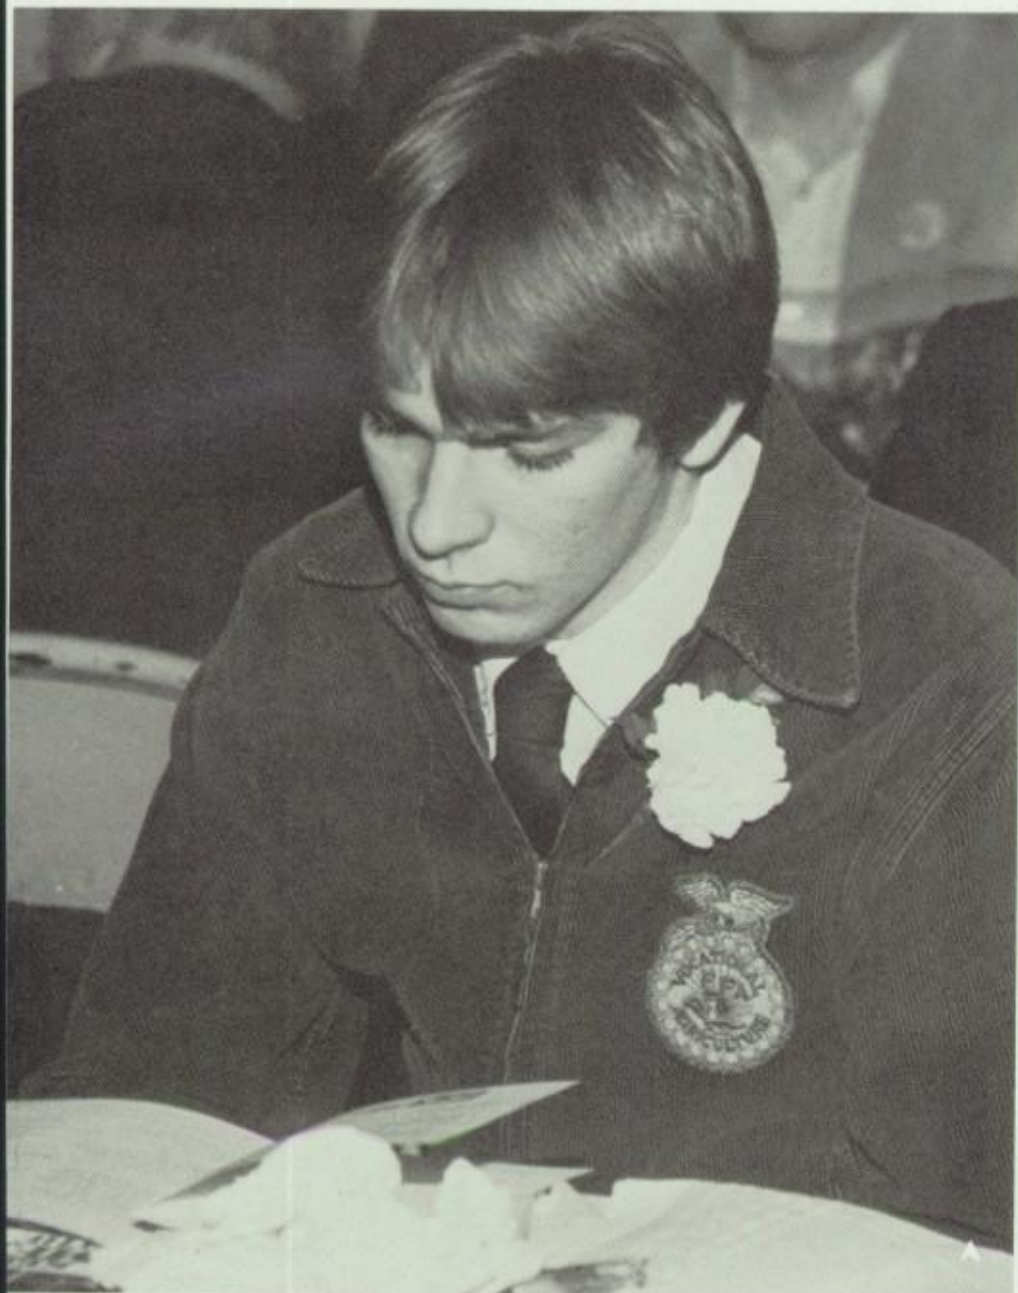

The FFA sent two members to the Washington D.C. Leadership Conference last summer as well as numerous members to the State FFA Convention and Camp, and to District Officer Training Conferences. The chapter also held its own officer training camp at FFA Camp for the first time this year.

# Had a Rough Start but Ended Smooth

The Student Council started the year on a rough note, not having its advisor until the day before the first day of school. This gave the Student Council a very short time to plan its largest event of the year; Homecoming. We did pull it off, however, and ended up with a good one, having one of the closest game competitions ever. Our next big project was the Christmas Banquet, which was unfortunately cancelled due to bad weather after much hard work and planning.

The second half of the year proved to be a busy one. We sponsored our first dance, attended the state conference, held the staff appreciation breakfast, the student council spring workshop, and help student body elections. The student council put a lot of hard work into this year, and we sincerely hope everyone had a good one.

# Spirit

This year of cheerleading will leave behind many good and fun memories. Through all the winning and the losing, the cheerleaders were still there to tell the team they were proud to be Raiders. Cheerleading didn't just involve basketball and football, it also included girls basketball, wrestling, cross country, track, golf and baseball. During the summer, the cheerleaders went to camp at Kenyon College and spent four days learning new cheers, chants, and dance routines. During the school year study halls were spent making signs, tags, and tee-pees for the home games.

During the winter they hosted the World Cheerleaders in a district and area wide clinic. The clinic was a big success with a turnout of approximately 175 people.

The word cheerleader means spirit and spirit is what this year's cheerleaders were full of!!

## Administration

The 1983-84 school year found the students of Lakota High School busily engaged in preparing for their futures: many planning further education, some wishing to pursue military careers, others intending to enter the work force immediately following graduation, nearly all with some serious goal or plan in mind. Determination, a sense of the future and the knowledge that what young people think or do does matter, contributed greatly to the excellent school year that it turned out to be. The reasons for this are clear: Arrange for a young creative mind to make contact with a well-prepared faculty which cares, in an educationally stimulating environment, gives them all a sense of hope. Then add an opportunity for the cultivation of special interests or skills, combine all and a definite improvement in the national economic picture and what do you get? You guessed it, a Great School Year!

Some of the fondest memories of the Class of 1984 were the times that we discovered important parts of ourselves and experienced new emotions.

We learned responsibility — to make a commitment and keep it, no matter how much time and dedication it required. At times we were worn down, but we always struggle to keep a constant pace.

There are many students that feel psychology class is important and needed for their lives in the future. Psychology is the study of the human mind. Students learn why people feel the way they do and why they do the things they do. The class is interesting and you do different experiments such as fingerprinting, ink-blot, blind-fold experimenting, and working with mice.

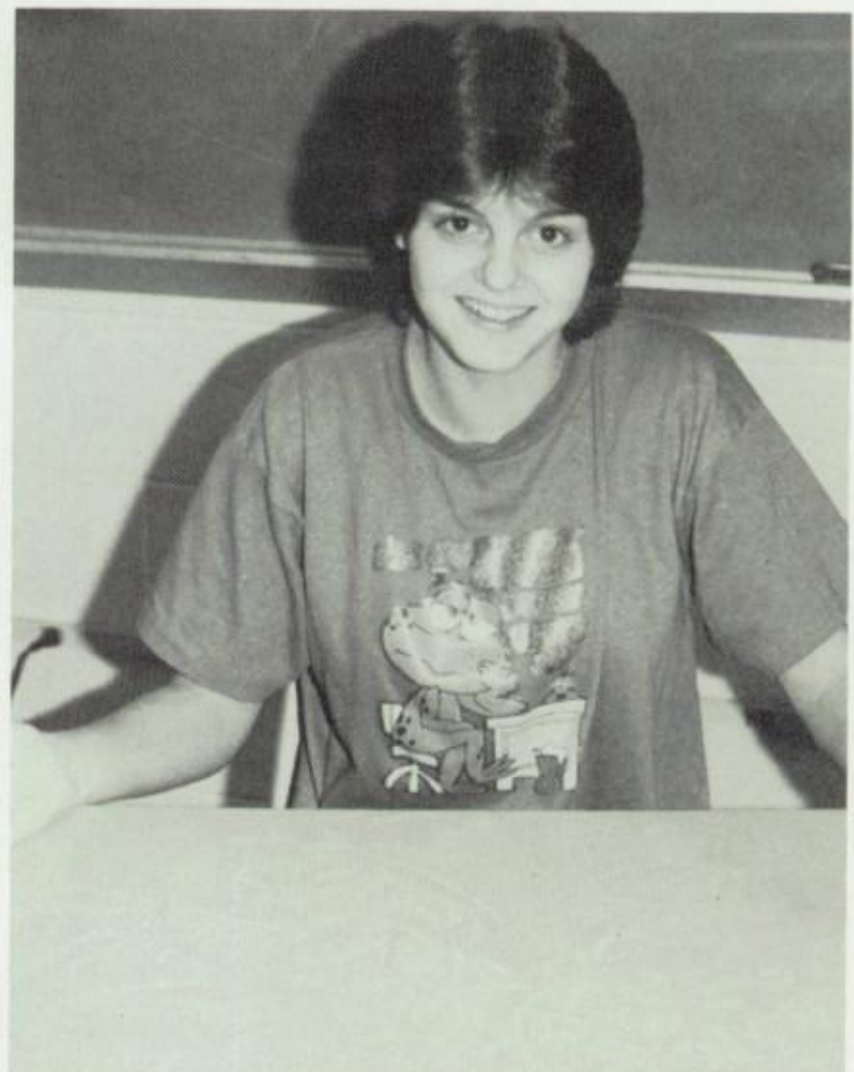

Psychology class can be very rewarding and you can learn to cope with your problems and feelings more realistically.

# Freshman

The class of "87" came to a new school with much enthusiasm and a lot of spirit. They proved this by winning homecoming week, with help from Miss Bensch and Mr. Devol, the freshmen advisors. Erin Watkins was chosen to be the freshman attendant.

The freshmen participated in many extra-curricular activities such as music, sports, drama, and clubs.

They made money for their junior prom by selling cookies. Julie Smith was the top seller. She sold 32 cans.

Starting your high school years can be both exciting and challenging, but the knowledge the freshmen attained will help them through years to come.

A. In shop class, Bryan Lippert and Dan Saam begin their projects on the band saw and jig saw.

B. Colleen Murphy knows that keeping dishes clean is an essential part in cooking.

C. Wendi Bishop learns that deep concentration helps to develop important skills needed later in life.

D. Rodney Hossler seems a bit confused with his homework assignment.

E. Linda Snyder puts forth some extra effort to help make the band sound great.

## Our Hearts Still Remember

We'll cry because we'll miss them;  
We'll wish that they were here.  
Our eyes will mist with memories;  
That linger through the years.  
Our tears will be more for us than them;  
For they know peace and joy.  
God's gift to us, returned to Him;  
Those precious teenage boys.

Dennis Hawk

A life that touches the  
hearts of others goes on  
forever.

Wayne Turpin
